Designed for Medical Environment

The 24CK560N is white in color to ensure proper cleaning as substances such as dust, etc., can easily be seen and removed. The color helps to maintain a visible level of cleanliness for a consistently reliable monitor. Plus, it complies with medical standard (IEC60601*, CE MDD), which guarantee the electrical and mechanical safety of medical devices in the healthcare field such as a consulting room or nurses' stations. And also, LG's Thin Client lets medical professionals securely log in and access information and resources from a protected data center.

Enhanced Work Efficiency

The 24CK560N with IPS can be configured into a dual-monitor workstation by and allows offering a clear image and vivid colors from any viewing angle. Its wide viewing angle helps hospital staffs to share content with others more easily. And, the fanless design reduces the noise level in the hospital, where noise affects not only hospital staffs' work efficiency, but also patient recovery.

Advanced Convenience

The 24CK560N provides various adjustment options, such as tilt, swivel, pivot, and height positioning according to user needs like doctors or nurses in the hospital. Plus, The All-in-One system can replace existing workstations consisting of PCs and monitors, efficiently utilizing desk space for a comfortable, cleanable environment.
